Visualization with Tableau

Essential Design Principles
for Tableau

Visual Analytics with
Tableau

Creating Dashboards and
Storytelling with Tableau

Data Visualization with
Tableau Project

Dec 14, 2020

Yaroslav Burdin

has successfully completed the online, non-credit Specialization

Data Visualization with Tableau

In this Specialization, you will learn how to generate powerful reports and dashboards that help people understand and draw insights from data. You will use Tableau, the leading software application in the field, to create high-impact visualizations of common data analyses, and apply predictive analytics to improve business decision making. The Specialization culminates in a Capstone Project in which you will use sample data to create visualizations, dashboards and data models to prepare a presentation to the executive leadership of a fictitious company.
